WHY DAMAS?

REDEFINING PREMIUM OLIVE OIL PRODUCTION IN SYRIA

Syria has exceptional olive varieties, a deep-rooted olive-growing heritage, and all the natural foundations required to produce world-class premium olive oil. Yet the true potential of the Syrian olive has not always been fully reflected in the final product.

DAMAS was established to change this.

The project was created to address the key factors that can compromise premium olive oil quality — from harvesting and transportation, through extraction and processing, to storage, packaging, and final delivery.

Our vision is not simply to press olives.

Our vision is to protect quality at every stage of the journey.

A BETTER OLIVE OIL
FOR A BRIGHTER WORLD

A STRATEGIC PARTNERSHIP FOR EXCELLENCE

We chose Pieralisi because they are the global leader in olive oil technology, with a proud history, a strong culture of research and continuous innovation, and an unwavering commitment to olive oil quality.

For over a century, Pieralisi has been at the forefront of olive oil extraction, investing significantly in R&D, developing advanced solutions, and setting industry standards worldwide. Their expertise, reliability and dedicated team give us confidence that we are working with the best.

At DAMAS, we share the same philosophy — a deep respect for the olive, a commitment to innovation, and a focus on producing exceptional extra virgin olive oil using the latest Pieralisi technology.

Together, we bring the best of Italian innovation and Syrian heritage to create a truly world-class olive oil.

WHERE HERITAGE MEETS INNOVATION

*THE MILL
A LIVING HERITAGE
IN THE SERVICE OF
A HIGHER QUALITY*

Inspired by Syria's rich history and its deep connection to the Mediterranean, our mill brings together timeless architectural elements and modern standards to produce exceptional olive oil.

Stone, arches, light and authentic details create an environment that reflects our belief: true quality is built on heritage and sustained by innovation.
